Towson University, Towson, MD

Bachelor of Science in Computer Science, 2025

TECHNICAL EXPERIENCE

Tools & Platforms: Unity, Git, React, SQL, Prompt Engineering (GPT/Gemini/Claude)

Languages Used: Python, C#, Java, JavaScript, HTML/CSS, Rust. Matlab, Batch, Kotlin

RELATED EXPERIENCE

Manager, **Shorty's Ice Shack,** 2014 - 2020

- Led and trained new employees, providing hands-on instruction during onboarding
- Created and assisted with employee scheduling to ensure proper staffing during peak seasons
- Managed inventory and assisted with ordering supplies, including syrups, ice, cups, and spoons
- Organized, stored, and rotated inventory based on demand
- Assisted with seasonal setup and teardown, including inventory storage, cleaning, and preparation for opening

Pool Operator, **Ace Aquatics**, 2019

- Obtained pool operator certification to safely handle and balance hazardous pool chemicals
- Monitored and recorded pH and chlorine levels to ensure swimmer safety
- Oversaw pool equipment and followed required safety and inspection procedures
- Served as lifeguard and supported other pool locations during high-attendance days

Intern, **Baltimore Life Insurance Company,** 2022 - 2023

- Leveraged skills in HTML, CSS, React.js, and SQL to develop and maintain corporate websites.
- Collaborated in the design and implementation of database structure, contributing to efficient data management
- Participated in sprint-based development, working with QA testers to implement and validate features

OTHER EXPERIENCE

Volunteer, **Anne Arundel County Food Bank,** 2018

- Supported those in need by sorting and packing food and drinks to be shipped to nearby food pantries
- Organized specific jobs for other volunteers to increase efficiency of packing

CodeQuest Participant, **Lockheed Martin**, 2019

- Collaborated with two peers to adapt to new scenarios for given coding problems

iD Tech Camp, **Paypal**, 2018

- Learned Java through instructors, camp curriculum, and self and peer evaluation
